

Online Book Store – Welcome Page

Create a webpage for Online book store with below look and feel.

- First row should have all columns joined to show current promotion of the store.
 - Using the right typography align the content to the center, with first letters in Caps of the string message header and all in lower case for the string message
 - Add an image as a logo along with the message where the logo is displayed as a round image.
- Second row should have search, download, print and favorite buttons, with proper images like below one.

- From 3rd row onwards it should be a 6 column table like break up grid with each column representing a book with
 - Image of book with soft edge rectangle shape
 - Title of the book and author in next line center aligned

With minimum 2 rows of book details
