

Learning Material for Introduction to JSP

Below is the learning material that you are expected to read along with completion of the hands-on assignments. The material is mentioned in the order in which it should be read.

No	Material Title	Material Location	Type of Material	Classification
1	Introduction to JSP	JSP_Introduction.pdf	PDF	Mandatory
2	Introduction to JSP	http://www.tutorialspoint.com/jsp/index.htm	Web	Suggestive

Hands-on Assignments for Introduction to JSP

Complete the below hands-on assignments before proceeding with the next Topic

No.	Hands-on Assignment	Topics Covered	Status
1	Create a HTML Page, which asks the user to enter a number in a textbox. On clicking the submit button, it places the request to a Servlet. The Servlet generates all Prime numbers which are less than the given number and adds them to an ArrayList and forwards the control to a JSP page. The JSP page iterates through the ArrayList and prints them in a tabular format.	JSP	<input type="checkbox"/>
2	Write a JSP program which when invoked will print today's date and time. [Hint: Use JSP expressions here]	JSP	<input type="checkbox"/>
3	Write a jsp program that prints a table with numbers and their corresponding factorial values.	JSP	<input type="checkbox"/>
